1/ Total number of counties is a net figure, eliminating duplication where both types of insurance are in force in a county. This duplication occurs in one wheat, four cotton, and four tobacco counties.

2/ Five wheat, two flax, eight cotton, one corn, and one bean county have carry-over contracts only.

3/ Yield-quality shown as commodity, and investment as monetary insurance.

4/ Two levels of insurance were offered in 91 monetary corn counties and 1 bean county.

5/ The actual number of counties in which crop insurance programs are operating is 727. There are 73 counties with two programs and five counties with three programs.
